

Dear parents of Burgdorf Elementary School,

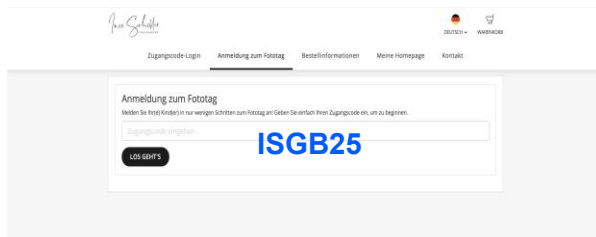

I am delighted to be able to photograph your children (again) this year from May 6th to 9th.

If your child is allowed to participate in photo day, I need permission from their legal guardians. To make this as easy as possible, I ask you to register your child online for photo day – **if there are multiple children at school: each child individually!**

When registering, please select the correct class or school kindergarten for your child and choose whether the registration is for individual and/or group photos.

Unfortunately, there is generally no time for sibling photos at school, but if the children would like, they are welcome to ask me for sibling photos during recess when I am not taking photos elsewhere. I can't promise that this will always work, but I'll be happy to try.

Please visit **inesschiebler.fotograf.de** by April 27, 2025, at the latest, and enter the following code under "Photo Day Registration":

or simply scan the
QR code:

**If I haven't registered, I am not allowed to photograph your child –
not even for the group photo!**

The rest of the process:

After the photo days, it will take about 2-3 weeks until your children's pictures are ready and you can view all of them in a personal, password-protected online gallery – only the group photos can be viewed equally by all parents. You will receive access to the gallery via email immediately after activation. Here you can then select and order your favorite pictures and corresponding photo products from the comfort of your own home. All images can, of course, also be purchased as digital image files.

If you have any questions or requests before or after the photo days, I look forward to hearing from you by phone or email.

I'm looking forward to spending the day with your wonderful children!

Ines Schiebler
